PROFILE

Experienced Flutter Developer with a passion for crafting seamless mobile experiences. Leveraging one year of hands-on project experience, particularly focused on Freshares applications. Proficient in developing and implementing robust Flutter solutions, adept at translating design concepts into efficient, user-friendly interfaces. Dedicated to staying abreast of emerging technologies and best practices in mobile development. Ready to contribute expertise to innovative projects and drive impactful results in the realm of Flutter development.

PROFESSIONAL EXPERIENCE

GenixBit Labs Pvt Ltd - Ahmedabad

Jr. Flutter Developer

Aug 2024 - May 2025

- Designed, developed, and deployed cross-platform mobile applications using Flutter.
- Worked closely with UI/UX designers and backend developers to build responsive and high-performance apps.
- Contributed to agile development sprints by resolving bugs, optimizing performance, and implementing new features.

PROJECT EXPERIENCE

HEADSTART PLATFORM - FLUTTER DEVELOPER

- Designed and developed the Flutter frontend for user roles: Entrepreneurs, Investors, and Agents.
- Implemented role-based access control and dashboard for different user types.
- Used Firebase for authentication, Firestore for real-time data handling, and Cloud Functions for backend logic.
- Technologies: Flutter, Dart, Firebase (Auth, Firestore, Functions), REST API, GitHub

NEAR 2 YOU - FLUTTER DEVELOPER

- Developed separate interfaces for Service Seekers and Providers.
- Implemented multi-role authentication and dashboard systems.
- Created a booking flow with calendar selection, time slots, and real-time availability.
- Integrated Google Maps for location-based services and dynamic pricing.
- Built provider service listings with custom pricing and availability toggles.
- Technologies: Flutter, Dart.
